

65° is too hot!

Dog + Car + Sun = 

Even when car windows are slightly open - and pet owners are gone "just for a minute" - **the rapid buildup of heat inside the car can reach well over 160 degrees in a few minutes.**

If you must take your pet along in the car, have another person stay with it while you are gone. Ask him or her to take the animals for a walk or a rest in the shade. Provide fresh, cool water to drink.

call 206-386-PETS
(Seattle Animal Shelter)

If you see a dog in a car suffering distress from heat exhaustion please **call the number above immediately.**

You could save a Dog's life!
